Art Unit: 1621

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-30 and 144-147, drawn to substituted amine and composition, classified in class various, subclass various.
 - II. Claims 31-35, drawn to a protected compound, classified in class various, subclass various.
 - III. Claims 36-40, drawn to different class of protected compounds, classified in class various, subclass various.
 - IV. Claims 41-45, drawn to amino compounds with protecting group, classified in class various, subclass various.
 - V. Claims 46-50, drawn to yet another different protected compounds, classified in class various, subclass various.
 - VI. Claims 51-53, drawn to amino compounds, classified in class various, subclass various.
 - VII. Claims 54-94, drawn to method of treatment, classified in class 514, subclass various.
 - VIII. Claims 95-114, drawn to method of inhibiting beta secretase activity, classified in class 514, subclass various.
 - IX. Claims 115-136, drawn to method of inhibiting cleavage of amyloid precursor protein, classified in class 514, subclass various.
 - X. Claims 137-143, drawn to a kit, classified in class 206, subclass various.

Art Unit: 1621

2. The inventions are distinct, each from the other because of the following reasons:

The ten groups of invention above are drawn to chemically divergent subject matter, which are patentably distinct for the reasons of classification and divergent subject matter. A reference anticipating one of the above group may not render the other obvious under 35 USC 103. Hence the restriction requirement is deemed proper.

Additionally applicants need to elect a single disclosed species if they elect any of groups I to VI and a single compound with single disclosed method of treatment if they elect group VII to IX. Applicants also need to point out to as to what claims read on the elected species.

3. In view of the complexity of the restriction requirement, a written restriction is hereby made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

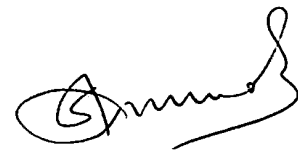

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
